Career Objective

"Motivated Btech fresher with a strong foundation in computer science and software development, seeking an entry role as a

Software Developer / DEVOPS Engineer/ Data Analyst. Skilled in coding , debugging, database management, and problem - solving with hands-on project and internship experience. Passionate about applying academic knowledge to real-world business challenges while continuously learning and adapting to emerging technology

Education

Bachelor of technology (Btech) | DRIEMS University, Cuttack, 2026 | CGPA: 7.9

Relevant Subject: Data structure & Algorithm, Operating system, Database Management System (DBMS), Object-

oriented Programming (oop), Computer Network, Software Engineering, Artificial Intelligence & Machine Learning, Web Technology,

Cloud Computing, Devops

Technical Skills

- **Programming:** Python, C, C++, HTML, CSS
- **Database Management:** MySQL
- **Other Skills :** Data Analysis , Problem - Solving, Debugging

Internships

- Nareshit python developer
- Cloud computing by Interns Forge
- Full stack web development by devtown

Projects

IoT based home surveillance system:

- Developed an IoT-based home automation and surveillance system using ESP32, integrating gas, fire, and intrusion detection sensors. Enabled real-time monitoring and remote appliance control via the Blynk app with instant alert notifications. Designed a cost-effective and scalable solution for enhanced home safety and security

RAG Chatbot

- Built a Python-based RAG chatbot that extracts and processes information from PDFs and notes to provide intelligent question-answering. Integrated text chunking, embeddings, and vector database retrieval to enhance response accuracy and relevance

Extra-curricular Activities

- participated in designing clip, creating posters, banners, and events creatives
- Designing vector art, freelancing, video editing

Skills

Languages & Frameworks: Python, c , c++ , html , css

Databases: MySQL, SQLite

Developer Tools: VS Code

Soft Skills

- problem solving | Team Collaboration | Communication | Time Management | Adaptability
